SAFE AND SECURE

Linking Members with Their Protocols, Recruitment Materials, Contact Information, and Study Updates

Customizable Study Relevant Information That Sites and Sponsors Value Most!

Beta testing survey August 2013. N = 180 total % of respondents rating field value as highly valuable or valuable. Respondents included investigators, coordinators, study staff, monitors, and sponsor staff. Respondant choice scale: Highly valuable, Valuable, Neutral, Not Valuable, Not at all Valuable.

Make Your Study Related Information

SECURE. ACCURATE. ACCESSIBLE

Sponsors:

Help Your Sites:

- Increase Recruitment
- Enroll the Right Subject
- Reduce Screen Fails
- Improve Protocol Compliance

You Decide:

- Who can access the study related materials
- What protocol information will made available
- Which marketing materials and other recruitment tools can be used

Sites:

Can List For Free:

(Accessible to any member of gotoprotocol.com they select)

- General information about their site
- Current studies
- IRB approved screening materials
- IRB approved recruitment and marketing materials
- Contact information

✔ **Imagine:** No more rummaging through hundreds of pages of loosely bound protocol notebooks.

✔ Having study screening tools and consent forms easily accessible or emailed with the click of a button.

✔ Marketing materials and study related information that can be sent directly from your mobile device anytime, anywhere.

✔ Immediate access to inclusion and exclusion criteria as well as allowed and prohibited medication to better identify qualifiable study candidates.

✔ Being able to locate up-to-date site, support services, or monitor/ sponsor contact information 24/7.
